SHERBURN - Martin County West staff and students are mourning the loss of teacher Kaylie Hogue following her sudden death.

Hogue taught three years at Martin County West, and last Wednesday had just finished cleaning and emptying out her classroom. That evening, she suffered a epileptic seizure and died. She was 24.

"She was an outstanding educator and an even better person," said high school principal David Traetow. "She meant so much to the staff and students at MCW."

# Thank You for being a part of TZD

## **What is TZD?**

One person dies every 16 minutes in a traffic crash in the United States. Over the course of a lifetime, nearly every U.S. resident is touched by consequences of traffic crashes. Toward Zero Deaths is the United States' highway safety vision. It is the only acceptable target for our nation, our families and us as individuals.
